26095 Tarragon St, Hayward CA 94544   jasontech1998@gmail.com

EDUCATION

Bachelor of Science in Technology Information Management   Major GPA: 3.43

University of California, Santa Cruz   June 2020

Courses Taken: Computer Networks, Assembly Language, Data Structure, Accelerated Programming, Management of Technology I and II, Business Information System

PROJECTS

Responsive Portfolio

- Created a fully responsive web page to display my design and front end web development skills
- Utilized HTML/CSS and Bootstrap 4's features such as flex box and grid system to format the web page

Twitter API Bot

- Created a Twitter Developer account and used Twitter API Documentation
- Utilized the Python Library, Tweepy
- Coded a program using Python to scrape a user's Twitter profile and like any original tweets while ignoring retweets and replies to avoid spamming

FitCheck

- Worked with a team to design a product that uses VR technology to improve online shopping experience
- Conducted Aggregated Project Plan, High-Level House of Quality, Reverse Engineering, Financial Model, and Product Release Map
- Developed a Supply Chain Model and Static Demand Forecasting for our company

WORK EXPERIENCE

I Love Sushi   Santa Cruz, CA

Head Server   June 2019 – Present

- Multitasked at all times by providing each guest with a positive and engaging customer service
- Maintained and organized a clean workplace environment
